Campus best practices in
Géant

Jari Miettinen

What is Géant?

GÉANT is the pan-European research and education network that interconnects Europe's National Research and Education Networks (NRENs)

Together we connect over 50 million users at 10000 institutions across Europe, and with extensive links to global partners GÉANT reaches over 100 NRENs worldwide.

Campus Best Practice

Thursday 19 Mar 2015 | Time - 11 16

Campus Best Practice is a part of the GÉANT project funded by the European Union. Campus Best Practice (CBP) aims to address key challenges for European campus networks. The CBP Team does this by organising working groups and providing an evolving and to-the-point set of best practice documents (BPDs) for the community.

Campus Best Practice is a collaborative effort between nine NRENs across the GÉANT community as well as experts from across the organisation. The aim is to help share information throughout GÉANT to help NRENs and campuses meet the challenges of technology, security and management of the latest hardware, software and services.

Knowledge Base

Campus Best Practice provides open access to all its reports to help NRENs, Campus and Departmental IT services share experiences and knowledge across the R&E community.

The CBP team have divided these reports into six key themes to help focus on the issues most relevant to the users. In addition a number of reports have been produced highlighting the experiences of users and NRENs. Members of the CBP teams can access and contribute to future documents through the Wiki.
